MODULE TO TEST
ARAL Program Tutor Module

NO.	FUNCTION TO TEST	PASS/FAIL	NOTES
1	Log in using authorized Tutor credentials		
2	View Tutor Dashboard (learner count, average attendance & scores, and Top At-Risk list)		
3	Inspect Student Performance Trend Chart with Day / Week / Month filters		
4	Start attendance session with custom duration and display dynamic session QR code & PIN		
5	Monitor real-time student check-ins and manually override attendance records		
6	Export Daily Attendance (DTR) sheets (PDF/Excel)		
7	Record and edit weekly intervention activity scores per student		
8	Record milestone assessment scores (MOSY / EOSY / Summer) during active assessment window		
9	Export Assessment Score Summary reports (PDF/Excel)		
10	View Data Analytics breakdown (Overall risk distribution, Attendance trends, Score trends)		
11	Browse Assigned Students directory and view individual learner academic profiles		
12	Scan staff session QR code via Staff Scanner (/staff/scan) to log personal tutor DTR		
13	Log Out securely

MODULE TO TEST
School Principal Executive Module

NO.	FUNCTION TO TEST	PASS/FAIL	NOTES
1	Log in using authorized Principal credentials		
2	View Principal Dashboard summary cards (Total Tutors, Total Faculty, Total Students)		
3	Monitor school-wide learner risk distribution (High, Medium, and Low Risk counts)		
4	Inspect school-wide Student Performance Trend Chart with Day / Week / Month filters		
5	Review per-tutor performance list and compare student score averages across tutorial sections		
6	Monitor staff attendance rates (Tutor and Faculty attendance percentages)		
7	Inspect school-wide Top At-Risk learners list and identify vulnerable students		
8	Access Principal Data Analytics hub with Overall, Attendance, and Score tabs		
9	Filter data analytics by specific tutor or inspect school-wide totals		
10	Search and review individual student risk details, score averages, and attendance records		
11	Log Out securely

MODULE TO TEST
School Administrator & System Management Module

NO.	FUNCTION TO TEST	PASS/FAIL	NOTES
1	Log in using authorized Administrator credentials		
2	View Admin Home Dashboard with school-wide performance statistics and staff counts		
3	Manage academic school semester (1st Sem, 2nd Sem, Summer) and toggle assessment window open/closed		
4	Track tutor assessment submission progress (Pending, Submitted, Closed per tutor)		
5	Manage user accounts across roles (Search, create, and edit Student, Tutor, Faculty, Principal, Admin)		
6	Assign enrolled students to designated ARAL tutors and tutorial sections		
7	Access Assessment & Evaluation Hub to manage semester cohort transitions		
8	Generate and display Staff Attendance QR Code for tutor and faculty daily logging		
9	View, filter, and manually override staff attendance logs (Time In, Time Out, Status, Undertime)		
10	Export Staff QR Code and Staff Daily Time Record (DTR) sheets (PDF/Excel)		
11	Access Assessments Archive to review historical academic records and student promotion outcomes		
12	Inspect security audit logs and user activity trails with date and action filters		
13	Log Out securely

MODULE TO TEST
Student / Learner Module

NO.	FUNCTION TO TEST	PASS/FAIL	NOTES
1	Log in using Student credentials		
2	View Student Performance Dashboard with composite score, attendance rate, score average, and risk badge		
3	Inspect personal Academic Performance Trend Chart with Day / Week / Month filters		
4	Access QR Attendance and scan tutor's active session QR code via device camera		
5	Enter manual session alphanumeric code / PIN for attendance check-in		
6	View personal daily attendance records, timestamps (Time In / Time Out), and session calendar		
7	View weekly intervention activity scores, percentage equivalents, and activity remarks		
8	View semester milestone assessment grades (1st Sem MOSY, 2nd Sem EOSY, ARAL Summer Assessment)		
9	Access Student Data Analytics to inspect attendance and score performance breakdowns		
10	Receive and acknowledge tutor intervention notes in notification panel		
11	Log Out securely

MODULE TO TEST
Faculty (Subject Teacher) Module

NO.	FUNCTION TO TEST	PASS/FAIL	NOTES
1	Log in using authorized Faculty credentials		
2	Access Faculty Home Dashboard		
3	View personal average attendance rate and attended session count		
4	View today's attendance status indicator (Present / Absent)		
5	Inspect personal attendance rate trend chart with Day / Week / Month filters		
6	View summary attendance metrics (Current Rate, Highest Point, Lowest Point, Trend direction)		
7	View Recent DTR Logs panel with session dates, status badges, and Time In / Time Out timestamps		
8	Access Staff Scanner (/staff/scan) to scan Admin's QR code for daily DTR attendance logging		
9	View personal user profile details (/profile)		
10	Log Out securely

Part I. User Information

Name (Optional): _____

Date of Evaluation: _____ Role: [ ] Tutor [ ] Student [ ] Admin [ ] Faculty [ ] Principal [ ] IT Expert

Part II. System Evaluation Questionnaire

Instructions: Please rate your agreement with each statement using the scale below.

Numerical Rating and Equivalent

5 - Strongly Agree | 4 - Agree | 3 - Neutral | 2 - Disagree | 1 - Strongly Disagree

A. Functional Suitability

- Represents the degree to which a product or system provides functions that meet stated and implied needs when used under specified conditions.

No.	Functional Suitability	5	4	3	2	1
1	The system includes all expected features (session QR attendance, weekly intervention scoring, early risk alerts, and exportable reports).					
2	The system performed all functions correctly and accurately.					
3	The features were appropriate and helpful for completing my tasks.					
4	The data analytics model correctly classified learner risk levels (High, Moderate, Low Risk) based on session attendance records and weekly intervention activity scores to enable early tutor intervention.					
5	The system generated submission-ready reports and notifications as expected.					

B. Performance Efficiency

- Represents the performance relative to the amount of resources used under stated conditions.

No.	Performance Efficiency	5	4	3	2	1
1	The system responded quickly to my actions.					
2	Pages loaded without noticeable delays.					
3	The system handled multiple tasks and simultaneous requests without slowing down.					
4	File exports (DOCX/PDF/Excel) and camera QR code scans were processed quickly.					
5	The system performed efficiently even with multiple users logged in.					

C. Compatibility

No.	Compatibility	5	4	3	2	1
1	Can be accessed across different devices (desktop, laptop, smartphone, tablet) without issues.					
2	The system works well alongside other applications I use (e.g., browser, camera).					
3	The system can export and share data with other formats if needed (e.g., DOCX/Excel/PDF).					
4	The system did not interfere with other applications running on my device.					
5	Performed consistently across different browsers or platforms.					

D. Interaction Capability

No.	Interaction Capability	5	4	3	2	1
1	Easy to learn and navigate without prior training.					
2	The interface was intuitive and user-friendly.					
3	I could easily find the features and menus I needed.					
4	The system helps me avoid making errors (e.g., validation messages, duplicate scan warnings).					
5	Provided clear feedback for every action I performed.					

E. Reliability

- Degree to which a system, product or component performs specified functions under specified conditions for a specified period of time.

No.	Reliability	5	4	3	2	1
1	Stable and did not crash during use.					
2	Available and accessible when I needed it.					
3	The system handled my inputs without errors or delays.					
4	I felt confident that student attendance, scores, and evaluation records were saved and not lost.					
5	The system recovered properly after any interruption or network error.					

F. Security

No.	Security	5	4	3	2	1
1	The system correctly restricted access based on user roles (Student, Tutor, Faculty, Principal, Admin).					
2	I felt that student academic data and records were protected from unauthorized access.					
3	The authentication and role-based login process was secure and seamless.					
4	The system protected sensitive information (e.g., personal details, assessment scores) appropriately.					
5	I can trace back actions and activities performed in the system.					

G. Safety

- The capability of a product under defined conditions to avoid a state in which human life, health, property, or the environment is endangered.

No.	Safety	5	4	3	2	1
1	Does not cause harm to users, data integrity, or school operations.					
2	Provides warnings or confirmations before critical or irreversible actions (e.g., student level advancement, score overwrites).					
3	Prevents actions that could lead to data loss or service disruption.					
4	The system's automation does not create unsafe or biased outcomes.					
5	The system can be safely used without risk to user privacy or well-being.					

Note: This section is only for IT Expert Evaluators. If you are not one, you are free to skip Items H & I.

H. Maintainability

No.	Maintainability	5	4	3	2	1
1	Features can be easily updated or modified without breaking other functions.					
2	System components are organized in a way that allows independent changes.					
3	Issues/bugs in the system can be diagnosed and fixed efficiently.					
4	The system can be tested easily to verify if changes work correctly.					
5	The system's modular architecture supports future improvements.					

I. Flexibility

- Degree to which a product can be adapted to changes in its requirements, contexts of use, or system environment.

No.	Flexibility	5	4	3	2	1
1	Can adapt to different screen sizes and device resolutions.					
2	Can handle an increasing number of users or requests without major issues.					
3	Can be accessed on new devices with minimal setup via standard web browsers.					
4	Can be adjusted if DepEd ARAL Program guidelines (RA 12028) or grading criteria change.					
5	Can potentially replace or integrate with existing manual paper/spreadsheet processes smoothly.					

Part III. Open Ended Question

Please provide further comments about your experience in using ARALert. Kindly identify its strong points to be enhanced and its weak points that need to be addressed for improvements if applicable.
